2 HOW DO I USE MY NEW COCKTAIL SHAKER?

- Once you have added all of the ingredients & the ice to the cocktail shaker and sealed the top please tap the shaker with the heel of your hand to properly seal the container.
- Add ice to the mixing tin to fill the container 2/3 to 3/4 with ice.
- To assemble and seal your new cocktail shaker, place the lid of the cocktail shaker with built in strainer along with the cap for the top of the shaker. Always make sure the container is completely sealed before shaking.
- Mix your beverage! Use both hands to firmly grip the shaker with one hand on the top and another hand supporting the base. Once this is done you can now begin to mix your cocktail. Gently shake the container until water begins to condense on the outside of the shaker & it becomes cooler to the touch.
- Pour your perfectly chilled & mixed cocktail into your serving glass & ENJOY!!!
